

## **Life Stories that Join the Past to the Future**

We all collect memorabilia during our lives, and then we realise it's time to **get our stuff** sorted. Heather Thomas will share lots of ways to share your family's stories, and why it's so important. She hopes to inspire you to consider what you're doing (or not doing) with **YOUR** stuff!

**The stories of the past will leave the greatest mark for the next generation.**
